

# 9470 AREA LIGHT

A portable floodlight, housed inside a Peli case with cool operating temperatures and silent operation.

The 9470 features Intelligent Output Control and is able to display current battery life and calculate remaining run time. It allows the user to regulate

the light intensity to extend the battery life. It has a retractable handle and stainless steel ball bearing wheels. With a 12 volt power port including a dual USB adapter it provides power for multiple peripheral devices.

Maximum Height:	2083 mm
Weight:	47.60 kg

## COLOURS

### ALSO AVAILABLE THE 9470M

With a multi-terrain trolley and XL wheels it provides easy transport over rough terrain. Please enquire for full details.

**CAUTION:** The 9460 contains sealed lead acid batteries that can generate hydrogen gas when charging. It is imperative that these products are charged, as instructed, with the case lid open to allow any gases to escape as charging with the lid closed poses a significant hazard. Failure to abide by this instruction could result in injury and/or damage to property. Please refer to the warnings provided in the instructions for the unit and on a decal affixed to the inside of the case adjacent to the cavity where the charger unit is packed.
